WRITING LEGAL DESCRIPTIONS

In Conjunction with Survey Boundary Control

Fourth Edition - \$50.00

This book is necessary for anyone who works with or writes legal descriptions. Each of the fourteen chapters is structured for the self-teaching student or for class participation. Each chapter concludes with assignments, exercises, and questions and answers. Supported by extensive court citations, the author presents the material in a concise style which can be understood by the student, practitioner, or attorney. The text is supported by samples, recommended forms, and extensive illustrations. Chapter headings include:

- *Background and Framework*
- *Support Information*
- *Description Fundamentals*
- *Determination of What Controls*
- *Boundaries – General*
- *Water Boundaries*
- *Analysis and Interpretation*
- *Monuments*
- *Streets*
- *Occupation vs. Title*
- *Writing Descriptions*
- *Easements and Rights of Ways*
- *Descriptions of Section Land*
- *Special Shape Descriptions*

Hardcover; 9 x 6; 348 Pages with illustrations and answers to problems.

GW's WORKSHOP EXERCISE BOOK

Exercises in Legal Descriptions and Survey Analysis

Second Edition - \$20.00

A companion book to *Writing Legal Descriptions*. The exercises, assignments, and problems are presented by the author in a distinctive fashion with each problem being illustrated and referenced to the chapter and page in the text, *Writing Legal Descriptions*. The exercises are arranged in groups of various disciplines within the broad framework of land descriptions and boundary surveys.

Softcover; 9 x 6; 68 Pages with illustrations and answers to problems.

LAND SURVEY DESCRIPTIONS

A Classic Reference on Legal Descriptions

Tenth Edition - Sixth Printing - \$35.00

Originally written by William C. Wattles, this book is the classic reference for both the novice and seasoned practitioner. Revised by the late Gurdon H. Wattles, this book belongs on every surveyor's bookshelf. A partial list of the topics covered include *General and Essential Features of Descriptions; Forms and Types of Descriptions; Sectional Property; Easements and Vacations; Tide Lands and Water Boundaries; Mining Location; Interpretation of Descriptions; Words and Phrases; Description Variance; and Values of the Vara.*

Softcover; 9 x 6; 144 Pages with illustrations.

SURVEY DRAFTING

Drafting Practices in Surveying and Engineering Offices

Third Edition - \$40.00

This book fills a need not covered by existing surveying or drafting textbooks. All chapters include examples of the subject matter and are supported by typical problems, assignments, and solutions. This text fills the need for a college level course in the specialized area of survey drafting and mapping, while supplying a technical tool and reference guide for use by the drafter, designer, or engineer. Chapter headings include:

- *Field Notes*
- *Plotting Traverses*
- *Relating Maps to Descriptions*
- *Lettering and Lines*
- *Drafting Tools*
- *Production of Topographic Maps*
- *Plan and Profile Drawings*
- *Cross-Section Drawings*
- *Earthwork Calculations*
- *Developing a Grading Plan*
- *Verticle Curves*
- *Special Type Maps*
- *Geographic Control*
- *Computerized Drafting*

Hardcover; 9 x 6; 360 Pages with illustrations and answers to problems.
